

CMPA Delegation to the Asia Television Forum

The **Canadian Media Production Association** (CMPA) is organizing a trade-focused delegation to Singapore to attend the Asia Television Forum (ATF) from December 7 to 10, 2010 (exclusive of two travel days). The purpose of the delegation is to promote Canadian film, television and interactive media in the Asia Pacific and facilitate business meetings between Canadian delegates, ATF participants and Singaporean producers.

The ATF (asiatvforum.com) is Asia's leading international market for buying, selling, financing, and distributing content across all traditional and digital platforms, from television and feature film, to animation. The Forum includes a trade market, a full conference, and networking sessions. In addition, the High Commission of Canada will be sponsoring targeted business to business meetings between Canadian and Singaporean film, television and interactive media producers, and other industry stakeholders.

A travel and accommodation subsidy will be provided to selected CMPA members.

Interested members are asked to complete and return their statement of interest to participate as a delegate by **5 p.m. EDT, Friday October 22, 2010**. [Please click here to complete the statement of interest.](#)
